4

REFIT GONG — N.B. Gong will only locate in correct position.

REMONTER LE TIMBRE — NOTA: Le timbre ne se laisse repérer que dans sa position exacte.
GONG WIEDER EINBAUEN — ACHTUNG: Gong kann nur in der richtigen Position eingebaut werden.
RISISTEMARE IL BATAACCHIO — N.B. Il batacchio si sistemerà solo nella posizione corretta.
REPONGA LA CAMPANA — NOTA: La campana se encaja solamente en la posicion correcta.

5

N.B. No adjustment of bell is required. For silent testing operate bell with gong removed

NOTA: Il est inutile d'ajuster la sonnerie. Pour les épreuves sans bruit, enlever le timbre avant d'engager la sonnerie.

ACHTUNG: Die Glocke benötigt keine Änderung Zur geräuschlosen Prüfung Glocke mit abgenommenem Gong einsetzen.

N.B. Non è richiesta alcuna regolazione della campana. Per un collaudo silenzioso, far funzionare la campana rimuovendo il batacchio.

NOTA: El timbre no necesita ningún ajuste. Para probar silenciosamente, opere el timbre con la campana desmontada.

6

N.B. — Ensure that the gong screw is fully tightened on re-fitting. Failure to do so will result in reduced sound out-put.

CE marking under the CPD was affixed on: (see batch code on product)

- Bells certified under the CPD for Fire Alarm Applications, are shown in the column marked EN54-3.
- EN54-3 measurements shown reflect minimum expected SPL reading at the Loudest Point around the EN54-3 defined sounder axis.
- All other tone measurements reflect manufactures data, and are not verified by a Notified Body.
- Detailed EN54-3 polar SPL measurements are available in the Product Manual M05-005.
- All measurements are taken at 20 °C operating temperature.
